

We implore you not to allow LPFM radio stations to replace K-LOVE radio in the Phoenix/Tucson area (105.5, 89.1, 100.9). K-LOVE is our lifeline to other Christians in the community. It provides us with hope and connection on a daily (hourly!) basis. If it were to be replaced by an LPFM broadcaster, the positive, uplifting effect would be replaced by average, generalized music and/or babble. We do not need another station that fails to encourage and inspire. The temperament and mentality of K-LOVE clearly provides a hopeful environment to the public and to our entire community. Realize that the public overtly and covertly responds to "garbage in/garbage out", and that K-LOVE feeds us the kind of music and talk that inspires and directs us to be great people and responsible citizens, thereby returning the favor back to the community. PLEASE do not allow this lifeline to be taken away from us! PLEASE do not allow LPFM to take priority over K-LOVE!
